

RESEARCH ENABLEMENT PROGRAMME

Research Advantage Package

Accelerate your research with GeneWiz sequencing, gene synthesis and oligo services
Supported by Darwin Science and in-house Singapore-made qPCR chemistry.

TIER 1 · CORE

MYR **5,000**

Includes complimentary
6 mL R3Charge qPCR MasterMix
600 reactions · High Quality Chemistry,
manufactured in QMS Facility

TIER 2 · LAB

MYR **15,000**

Includes complimentary
24 mL R3Charge qPCR MasterMix
2,400 reactions · High Quality Chemistry,
manufacturing in QMS Facility

The package applies across eligible **Darwin Science Services** - oligo synthesis, gene synthesis, RNA-Seq and more – usable across multiple orders within the package period.

Sequencing, Synthesis & Expert Design Support

RNA-Seq Gene Expression from MYR 699 / sample

- › RNA QC, library prep, PE150, 6GB output
- › Full bioinformatics: QC, alignment, DEG, PCA
- › GO & KEGG enrichment, publication figures

Gene Synthesis from MYR 380

- › Inserts below 750 bp, standard vector
- › 2–5 µg plasmid yield
- › Cloning, protein expression, CRISPR workflows
- › Non-complex sequences

Oligo Synthesis from MYR 1.45 / bp

- › PCR, qPCR & sequencing primers
- › Cloning & gene-editing workflows
- › Fast turnaround, research-grade purity

Complimentary Design Review

Planning spatial genomics or transcriptomics? Book a no-cost consultation on technology selection, sample requirements and workflow design with a Darwin Science specialist.

TERMS & CONDITIONS

Programme open until 18 November 2026. Package validity 12 months from activation; usable in part across multiple orders and across eligible Darwin Science service categories; non-transferable. Complimentary R3Charge qPCR Master Mix (manufactured at Darwin Science's Singapore Quality Compliance facility) provided on package activation — selectable as R3Charge 2X Green or 2X Probe, subject to stock availability; indicative value Tier

1 ~MYR 1,414 / Tier 2 ~MYR 4,027.

Shipping: RNA-Seq MYR 700 may apply, waived for order of >10 samples; gene synthesis & oligos MYR 100 may apply, waived for order above MYR 1,000.

RNA-Seq from MYR 699/sample, standard mRNA, eukaryotic species only, RNA extraction excluded. Gene synthesis from MYR 380 (inserts <750 bp, standard vector, non-complex). Oligos from MYR 1.45/bp. Pricing in MYR, excludes applicable taxes. Cannot be combined with other discounts unless approved by Darwin Science. Darwin Science reserves the right to modify terms without prior notice.
